Proofs of notice as required by PSL §§ 122(2) and 122(4) are enclosed.

RG&E will deliver five hard copies of the Application to DPS Staff within the next seven business days.

Finally, RG&E respectfully requests that the Commission determine that no hearing is required because, pursuant to PSL § 123(2), the change proposed by RG&E to the Article VII certified transmission line would not result in any material increase in any environmental impact of the line or a substantial change in the location of all or a portion of such line.

Respectfully submitted,
